

# HIGH TECH II

IT BECOMES A SPECIAL EVENT  
WHEN YOU DELIVER THE HIGHTECH II

# INSIDE THE HIGHTECH II

Integral venting system and large molded-in vent slots provide greatest air flow and freshest restroom available

Keep paper towels and other trash out of the toilet and avoid unnecessary service calls with this custom designed waste basket – wall mounted to stay off the floor for more foot room and full access to washout ports

Top to bottom handholds for easy maneuverability

Proven rod and hinge wall assembly eliminates need for fasteners with high-pressure resistance and rigidity

Combination latch and hover handle made from Super Tough Dupont Nylon®

Enclosed dual aircraft cable and spring door enclosures prevent rusting and maintain repeated opening and closing

Molded-in stake down holes help secure the unit on site

Upper corner shelf allows users to safely rest personal items aside while using facilities

Twin-sheet thermo-formed walls make this unit the toughest around and allows for color separation from the exterior

Upscale double walled urinal designed to fit in the corner – an upgrade option for the non-flushing model only

Convenient solar powered light and 11" high quality mirror provide the upgrades today's users appreciate

Four-roll toilet paper dispenser fits neatly in front corner for easy access and less refilling

Ten washout ports provide quick draining and ease cleaning
